AHA : Heartsaver First Aid Quick Reference Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised Heartsaver First Aid Quick Reference Guide:

printed on durable card stock with four folds, giving it ten "pages". The subjects covered are:Checking the person,Choking,Severe Allergic Reaction,Heart Attack,Stroke,Seizures,Shock,Bleeding You Can See and Tourniquets,Adult CPR and AED.The guide measures 6.5 by 4 by 0.125 inches, so it will easily fit into a first aid kit. But for complete first aid information, I highly recommend the latest edition of "Medicine for the Outdoors" by Paul S. Auerbach.2 of 2 people found the following review helpful.
