Patricia Ireland, Mary Ann Novak : Hillcrest Medical Center: Beginning Medical Transcription Course before purchasing it in order to gauge whether or not it would be worth my time, and all praised Hillcrest Medical Center: Beginning Medical Transcription Course:

0 of 0 people found the following review helpful. Hillcrest Transcription By Jay Ess This is exactly the book I was looking for. The information and examples are fully explained. My only criticism is that the book is specific to Hillcrest Medical Centers and affiliate care facilities. Other formats will most likely be used wherever I work but the information necessary for each document is explained. Before beginning with a new employer, I will get an example of their formats. But the information is perfect for me as someone learning the field. I see where this book will be used as reference in the future. 0 of 0 people found the following review helpful. Hillcrest Medical Center Beginning Medical Transcription Course By Mary H. The book itself was great but when I tried the CD that it came with it would

not work. I inserted in my PC and tried to download it but it does not work like it should. I really was disappointed in that, because that is actually why I ordered that book for is the CD so that I can have a tool to practice with. 0 of 0 people found the following review helpful. bookBy nadinebrownThe book was used and in poor condition I did not like it at all disappointing no did not like this

This best-selling transcription book is now printed in full color, enhancing the anatomical illustrations presented. The book and practice software create a simulation approach, giving learners a working knowledge of the medical reports most commonly used in hospital and ambulatory care settings. Learners transcribe a variety of reports from inpatient case studies taken from actual medical reports. Organized by body system, reports transcribed include history and physical examination, operative, pathology, radiology, and discharge summary.

About the Author Patricia A. Ireland, CMT, AHDI-F, has worked as a medical transcriptionist since 1968 and has been an instructor of medical terminology and medical transcription for over thirty years--teaching in house and now on line since 2000. A certified medical transcriptionist since 1981, Ms. Ireland has worked in various settings, including hospitals, clinics, and doctor's offices, as well as two years overseas in Riyadh, Saudi Arabia plus 1-1/2 years in Kingston, Jamaica. Ms. Ireland currently lives in San Antonio, Texas, with her cats where she is a part-time instructor for the on-line division of Mildred Elley. She is an active member of her professional association, the Association for Healthcare Documentation Integrity (AHDI) as well as the Capital Chapter of AHDI in Austin. Mary Ann Novak, Ph.D. is an Associate Professor for the Information Management Systems and College of Applied Sciences and Arts in the Southern Illinois University. She is a member of Delta Pi Epsilon and Phi Delta Kappa.
