This one was in a GIANT box and the roll was inside it. From the same seller. This poster came a crinkled ruined mess. Unbelievable and such a waste of a cardboard box. It's like throwing your money away and killing a tree, for what? It's going into the trash. Totally ridiculous. As for the actual content of the chart. It's ok and would have wroked for my needs. But I cannot work w a bent up mess like this.4 of 4 people found the following review helpful. nice chartBy TannieChart is great!
