Freida L. Carson : Histotechnology: A Self-Assessment Workbook before purchasing it in order to gage whether or not it would be worth my time, and all praised Histotechnology: A Self-Assessment Workbook:

1 of 1 people found the following review helpful. Histotechnology: a self-assessment workbookBy RoseC1177This workbook is a must when purchasing the textbook Histotechnology: A self-instructional text. Correlates your understanding of the material read and uses the same format (and sneaky questions) as ASCP. Definitely worth the extra money!0 of 0 people found the following review helpful. Histotech workbookBy W. P. WietersI'm finding this workbook to be very helpful as a companion to the textbook because unlike many other texts I've used, no review/quiz questions appear at the end of the chapters. This is my only criticism of the text- so I think it is vital to the study of histotechnology to have this workbook.0 of 0 people found the following review helpful. It's the Histo-Bible!By Bennie McGarryIf you're studying to become a Histotechnician, you have to have this workbook! It reinforces all of

the basics you'll need to pass not only your course exams, but your board exam as well.

Companion workbook to the text by the same author. Spiral binding.
