0 of 0 people found the following review helpful. HelpfulBy AAIt all seems like common sense. This book put me more at ease with the interview process. There are a lot of questions that he helps you answer, but it must be said that they aren't ALL in there. You will get thrown a curve ball in the interview so don't rehearse your answers. The book is that will help you structure your answers and avoid pitfalls.0 of 0 people found the following review helpful. looks like they were having a sale on dark suit jacketsBy paudreybReally helped me ace my interviews!Was accepted to all three programs I applied to. Be sure though to study possible derivations of the questions and be prepared for this question: "I know you probably prepared for this interview. Tell us one question you prepared for. Give us your answer." I think it was also helpful in preparing for the group sections but not any interview sections involving writing.It does tell you to dress in a dark suit but actually all three schools commented to the group with, "Wow, looks like they were having a sale on dark suit jackets." I wore a royal blue dress with black jacket and that made me stand out in a good way.0 of 0 people found the following review helpful. I read this book before my interview even omw ...By mab4712I read this book before my interview even omw on the greyhound bus. It helped me in the sense to have sense of questions that will be asked, prepared simple answers about straightforward questions, and the key thing I learned was to always answer questions based on an experience you had rather than just answering point blank. After I read the book, my interview was extremely successful. Accepted in 2015.
