Mark Zelman Ph.D., Elaine Tompany, Jill Raymond, Paul Holdaway M.A, Mary Lou E. Mulvihill Ph.D. :
Human Diseases (8th Edition) (Human Diseases: A Systemic Approach (Mulvihill)) before purchasing it in order to gage whether or not it would be worth my time, and all praised Human Diseases (8th Edition) (Human Diseases: A Systemic Approach (Mulvihill)):

5 of 5 people found the following review helpful. Information is good, but answers in quizzes are wrongBy AOverall a great book. I am using it for HOSA purposes, but I have found several mistakes in the quizzes given at the end of each chapter. The information is good, but the mistakes in the quizzes at the end are off-putting.0 of 0 people found the

following review helpful. Many pages in the latter half of the book were ...By Enk Gomez Many pages in the latter half of the book were folded in on themselves and I found some grammatical errors throughout the text. 0 of 0 people found the following review helpful. Not condition I expected! By Valora Putansu I paid \$70 for this book and was expecting a "new" book and I got a stained, wrinkled paged, highlighted book. I am super upset! I do not appreciate this at all.

Today's most accessible, accurate, current, and engaging introduction to basic pathophysiology **Human Diseases: A Systemic Approach, Eighth Edition** is today's most comprehensive visual survey of the common diseases affecting each body system. This edition has been extensively updated and reorganized to present the field's latest knowledge more efficiently and intuitively than ever. Organized by organ system, it contains completely rewritten chapters on cancer, the nervous system, mental illness and cognitive disorders, the urinary system, the respiratory system, heredity, the endocrine system, cardiovascular system, and blood; as well as an entirely new chapter on the eye and ear (special senses). Its superior pedagogy has been enhanced with stronger foundational coverage of disease mechanisms, new **Healthy Aging and Promote Your Health** features, and extensive new artwork. **Teaching and Learning Experience** This text will help allied health students quickly understand the principles of pharmacology, learn how those principles manifest themselves in human disease, and use this knowledge in their careers. It offers: **A stronger foundation in the latest knowledge:** Starts by providing a strong foundation in terminology, and the concepts associated with immunity, inflammation, inheritance, cancer, and infectious diseases; then presents updated visual coverage of every body system **Promotion of critical thinking throughout:** Contains multiple features designed to encourage critical thinking -- both by individual students and in classroom settings **Emphasis on disease prevention and health promotion:** Links key concepts to opportunities for students to promote health and prevent disease in both others and themselves Also available with **MyHealthProfessionsLab NEW:** This title is also available with **MyHealthProfessionsLab** online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn and test their understanding to help them better absorb course material and understand difficult concepts. Students, if interested in purchasing this title with **MyHealthProfessionsLab**, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. **NOTE:** You are purchasing a standalone product; **MyHealthProfessionsLab** does not come packaged with this content. If you would like to purchase both the physical text and **MyHealthProfessionsLab** search for ISBN-10: 0133494934/ISBN-13: 9780133494938. That package includes ISBN-10: 0133351319/ISBN-13: 9780133351316 and ISBN-10: 013342474X/ISBN-13: 9780133424744. **MyHealthProfessionsLab** should only be purchased when required by an instructor.
