**J. S. Garrow MD PhD FRCP FRCP(Edin), W. Philip T. James, A. Ralph BSc PhD : Human Nutrition and Dietetics, 10e** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Human Nutrition and Dietetics, 10e:

3 of 4 people found the following review helpful. all you need to know about nutritionBy Loui WhiteThis book provides comprehensive information on nutrition. Summary points at the end of each chapter are very useful if you dont want to read the whole chapter. It was the recommended book whilst I did my university degree in nutrition.

This classic textbook covers the entire field of nutrition. Written by a large number of expert contributors, it contains comprehensive coverage of all aspects of the subject: physiology of nutrition, foods and their composition, dietary requirements in health, and nutritional management of disease.Most authoritative textbook on the subjectContains

chapter summaries which draw the student to important points Equally useful for students undertaking whole course on nutrition as for medical, nursing and other students for whom nutrition is only one part of their course New chapters on genetics and nutrition More material on famine health, public health nutrition and geriatric nutrition Revision of material on toxicology, with inclusion of functional foods and phytochemicals Redrawn illustrations
