1 of 1 people found the following review helpful. Font too small, index very difficult to read - buy AMA's! By frequentflyer Smaller font used for 2017 manual - too small! Index to Diseases Injuries - I think they meant for the vertical lines to help us see under what category entries fall - but the color of ink is too dark and it nearly makes you blind trying to look up anything. I suggest to go with an even lighter shade of black ink (prints gray) and with thinner vertical lines. Because the first/furthest left vertical line in index is darkest, very difficult to find what you're looking for. While this updated manual has the new codes, I'm using my old one to save my eyes. Also, book is entirely too big to handle...please separate into two volumes. Had to re-bind mine to be able to lift it and use it. 2 of 2 people found the following review helpful. NO NEW GUIDELINES IN BOOK By ali ali POORLY PUBLISHED BY EDITOR. THICK DOUBLE LINES IN ALPHABET SECTION, DIFFICULT TO SEE. NOT WORTH THE MONEY. BUY OPTIMUM OR AMA. NO NEW GUIDELINES IN BOOK. AAPC HAS FAILED US. IF I COULD I WOULD GIVE

There are dark lines on the pages throughout the index which makes it very difficult to read. There seems to be no way that you did not know this before it was mailed. There must be many more of these flawed books in circulation.
