ICD-10-CM Snapshot 2017 **Urology**

Pulmonary Coding Tip

If a definitive diagnosis has not been established by the end of the encounter, it is acceptable to report sign(s) and/or symptom(s) in lieu of a definitive diagnosis. When sufficient clinical information is not known or available about a particular health condition to assign a more specific code, the appropriate "unspecified" code (e.g., a diagnosis of pneumonia has been determined, but not the specific type). Unspecified codes should be reported when they are the codes that most accurately reflect what is known about the patient's condition at the time of that particular encounter.

The inclusion of the + (dash) symbol indicates that an additional digit is needed. For example, **Cause of bronchitis J44.9**.

American Medical Association : ICD-10-CM 2017 Snapshot Coding Card: Urology (ICD-10-CM 2017 Snapshot Coding Cards) before purchasing it in order to gauge whether or not it would be worth my time, and all praised ICD-10-CM 2017 Snapshot Coding Card: Urology (ICD-10-CM 2017 Snapshot Coding Cards):

The ICD-10-CM 2017 Snapshot Coding Cards provide commonly reported diagnostic codes and associated guidelines for a specialty. Pushpin icons help Snapshot users connect coding tips back to specific codes. These easy-to-use reference cards allow health care providers and staff members to quickly locate a desired code.
