**Thomas P. Holland, Roger A. Ritvo PhD, Anthony R. Kovner PhD : Improving Board Effectiveness: Practical Lessons for Nonprofit Health Care Organizations (J-B AHA Press)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Improving Board Effectiveness: Practical Lessons for Nonprofit

Health Care Organizations (J-B AHA Press):

The Ins and Outs of Winning Boards Cosponsored by the New England Healthcare Assembly Strong boards--as partners to strong executives--can be the key to meeting the challenges of rapid change and scarce resources. The highly praised *Improving Board Effectiveness* highlights the six competencies of strong boards and offers the self-assessment tools and techniques required to transform your board into a competitive force.

"A must for trustees who want to learn the practical skills necessary to be effective board members. The authors' six competencies for exceptional board performances--all clearly presented and easy to use--will define excellence in trustee leadership for years to come." mdash;Warren Bennis "A wonderful addition to the growing literature on voluntary health care board relationships and development. Board chairs, CEOs, consultants, and other students of board behavior and effectiveness will find its analysis and assistance insightful and practical. We all can put this resource in our board rooms today." mdash;Richard J. Umbdenstock "Rapidly changing opportunities and threats require major organizational stakeholders, like boards, to function at optimum levels. Holland, Ritvo, and Kovner provide solid solutions for positioning your board to maximize its effectiveness." mdash;Robert S. Curtis

From the Inside Flap Effective boards are essential in times of stability and economic booms--but they are even more critical in today's turbulent business climate. Strong boards--as partners to strong executives--can be the key to meeting the challenges of rapid change and scarce resources. The highly praised *Improving Board Effectiveness* offers the self-assessment tools and techniques required to transform your board into a competitive force. This book highlights the six competencies of strong boards--contextual, educational, interpersonal, analytical, and strategic--and accompanies each key area with effective practices and pertinent questions all nonprofit health care boards can use to evaluate their performance and identify issues warranting attention. From the Back Cover *Improving Board Effectiveness* shows how winning boards work both in and outside of health care.
