**Jerry Osheroff, Jonathan Teich, Donald Levick, Luis Saldana, Ferdinand Velasco, Dean Sittig, Kendall Rogers, Robert Jenders : Improving Outcomes with Clinical Decision Support: An Implementer's Guide, Second Edition (HIMSS Book Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Improving Outcomes with Clinical Decision Support: An Implementer's Guide, Second Edition (HIMSS Book Series):

0 of 0 people found the following review helpful. No page numbers on kindle versionBy RavenI needed this book for a class I am taking. The Kindle version has no page numbers and it is very hard to navigate when I need to look for

something when professor is recommending a page range to read. Add page numbers to your kindle book version please!

Winner of the 2012 HIMSS Book of the Year Award! Co-published by HIMSS, the Scottsdale Institute, AMIA, AMDIS and SHM, this second edition of the authoritative guide to CDS implementation has been substantially enhanced with expanded and updated guidance on using CDS interventions to improve care delivery and outcomes. This edition has been reorganized into parts that help readers set up (or refine) a successful CDS program in a hospital, health system or physician practice; and configure and launch specific CDS interventions. Two detailed case studies illustrate how a "real-life" CDS program and specific CDS interventions might evolve in a hypothetical community hospital and small physician practice. This updated edition includes enhanced worksheets--with sample data--that help readers to document and use information needed for their CDS program and interventions. Sections in each chapter present considerations for health IT software suppliers to effectively support their CDS implementer clients.
