Elizabeth (Editor) Petersen : Infection Control for Nursing Homes: A Guide to Government Standards before purchasing it in order to gage whether or not it would be worth my time, and all praised Infection Control for Nursing Homes: A Guide to Government Standards:

When it comes to infection control, compliance is difficult, but the stakes are high. It's one of the biggest challenges your facility faces: Under F-Tag #441, nursing homes must "establish and maintain an infection control program designed to provide a safe, sanitary, and comfortable environment and to help prevent the development and transmission of disease and infection." With residents frail and at a greater risk for infections such as MSRA, c. difficile, urinary tract infections (UTI), and, according to the Centers for Disease Control, pandemic flu virus, an effective infection control program is crucial--yet nursing homes often lack the resources to identify and control infection. Introducing Infection Control for Nursing Homes: A Guide to Government Standards--the guidance, policies, and staff training tools your facility needs to prevent the spread of infection and avoid one of the top survey

deficiencies in the industry.
