Philip W. Smith : Infection Control in Long-Term Care Facilities (Health Life Science) before purchasing it in order to gage whether or not it would be worth my time, and all praised Infection Control in Long-Term Care Facilities (Health Life Science):

Infection Control in Long-Term Care Facilities was written to delineate the concepts of diagnosis, transmission, and prevention of infection that are particularly applicable to the long-term care facility, and to present those concepts in a manner that will provie a thorough but practical background for the infection control practitioner. This new edition has been completely updated and is now divided into three sections for easy referencing.

About the AuthorHospital Epidemiologist, Clarkson Hospital. President of the Board, Nebraska Infection Control Network. Consultant to the State of Nebraska, Department of Health for Infectious Diseases, Omaha, Nebraska.
