By MissAmandaThe Book was in PERFECT condition, new un-opened as i was told from the books description, The company was fast to answer any questions i had, provided me with FAST Shipping, and also provided me with the tracking information when i asked!!! A++++ thanks so much!!!! 0 of 0 people found the following review helpful. Four Stars By meeks Great book. Good worksheets and such inside. Very descriptive. Still have it. 2 of 2 people found the following review helpful. Awesome Book, maybe a little too advanced..... By Joe O This is a well put together book. If you're going for just NREMT-I, it goes a little too in-depth with the medical terminology the anatomy physiology, but other than that, it's a good book.

This text bridges the gap between the two curricula while still keeping them separate, making it user friendly for any instructor and students.
