0 of 0 people found the following review helpful. Four StarsBy StacieDoes the job.0 of 0 people found the following review helpful. professional referenceBy JoeThe standard reference for terminology in dietetics. This is used by all students of dietetics and is required for clinical one and two.0 of 0 people found the following review helpful. good materialBy Eslamgood material, great condition and over all great text book about Nutritional care process. good for

outdoor clinic and hospitals

This book is for anyone practicing or studying dietetics or nutrition. It has the complete language for the nutrition care process. This is needed especially when charting in the clinical nutrition world.
