Kathryn A. Booth RN MS : Intravenous Therapy for Health Care Personnel with Student CD-ROM before purchasing it in order to gage whether or not it would be worth my time, and all praised Intravenous Therapy for Health Care Personnel with Student CD-ROM:

2 of 2 people found the following review helpful. Very InformativeBy Cherry SiasThis book was a requirement for my IV Therapy class and holds a lot of information one needs. The CD is helpful, but could be more so when it comes to the calculations. I'm not a fan of math so when I'm told a problem is incorrect, I need more than the answer - I need to a proper way to come to the correct answer.0 of 0 people found the following review helpful. Great PurchaseBy CustomerWhen I bought the book I expected it to have writing and highlighting book was like new with cd still inside unused0 of 0 people found the following review helpful. Great investment for any beginnerBy RAVEN CELESTINETHorough and valuable information to expand knowledge in intravenous therapy. Step by step guides and

illustrations. Great investment for any beginner.

Intravenous Therapy for Health Care Personnel is a one of a kind book for entry-level health care practitioners to learn the basics of IV therapy. This eight-chapter text/workbook covers essential topics, including coverage within the scope of practice for Medical Assistants. The book and accompanying CD are highly visual and focus on application and understanding, as well as presenting real-life situations that can occur during IV therapy and their necessary solutions.

About the Author Kathryn A. Booth, RN-BSN, RMA (AMT), RPT, CPhT, MS is a registered nurse (RN) with a masters degree in education as well as certifications in phlebotomy, pharmacy tech, and medical assisting. She is an author, an educator, and a consultant for Total Care Programming, Inc. She has over 30 years of teaching, nursing, and healthcare experience that spans five states. As an educator, Kathy has been awarded the teacher of the year in three states where she taught various health sciences, including medical assisting in both a classroom and an online capacity. Kathy serves on the AMT Examinations, Qualifications, and Standards committee, as well as the advisory board for two educational institutions. She stays current through working at various practice settings as well as obtaining and maintaining certifications. Her larger goal is to develop up-to-date, dynamic healthcare educational materials to assist her and other educators and to promote healthcare professions. In addition, Kathy enjoys presenting innovative new learning solutions for the changing healthcare and educational landscape to her fellow professionals nationwide.
