Dakota Mitchell, Lee Haroun : Introduction to Health Care, 3rd Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised Introduction to Health Care, 3rd Edition:

0 of 0 people found the following review helpful. Saved me money and just what I neededBy StephanieI can't say that this is the most interesting book, but for my intro to health care class this is exactly what I need. It works and much cheaper than going through the school.1 of 1 people found the following review helpful. Outdated informationBy Dmc810Just started reading this book for a mini-Spring semester class and I am surprised how outdated some of the information is, especially with the Affordable Care Act in place. It looks like there is a more recent version published in Jan. 2016 that is probably more up-to-date. I will be bringing it to my instructors attention.0 of 0 people found the following review helpful. googBy Customergood

INTRODUCTION TO HEALTH CARE, 3E provides learners with an easy-to-read foundation in the profession of health care. This redesigned and updated new edition offers a comprehensive introductory survey of basic clinical

health care skills for learners entering health care programs or for those that think they may be interested in pursuing a career in health care. Core competencies shared by all health care professions such as communication, infection control, and professionalism are provided to expose you to the reality of practice. This book emphasizes developing critical thinking skills through a five-step problem solving model that teaches you to assess a situation, consider alternatives, choose an appropriate alternative, evaluate the results, and revise as needed. This resource demonstrates how to think like a health care professional and is a terrific first step towards a rewarding career.

About the Author Dakota Mitchell, R.N., M.S.N., M.B.A., earned her master of science degree in nursing from the University of California, San Francisco, and a master of business administration degree from the University of Santa Clara. The combination of these advanced degrees provides a valuable perspective for understanding and functioning within the rapidly evolving world of health care today. Dakota has more than 35 years of experience in health care, including education, management, and curriculum consultation. In addition to devoting many years to classroom and clinical teaching, she has developed and implemented innovative health care programs at both the vocational and associate degree levels. Dakota has written and/or served as a content expert on numerous health care instructional projects for Cengage Learning. Lee Haroun, M.A., M.B.A., Ed.D., has over 45 years of experience in education as a teacher, administrator, and writer. She has worked with hundreds of health care students and has a special interest in helping them become successful professionals. Her work has included coordinating curriculum development for a variety of programs, including occupational therapy assistant, patient care technician, health information technician, and insurance coder. In addition, she has focused on helping health care instructors succeed, and her doctoral dissertation explored the transition of health care professionals from the field to the classroom. Lee is the author of *CAREER DEVELOPMENT FOR HEALTH PROFESSIONALS* (Elsevier Science), coauthor of *OCCUPATIONAL THERAPY FIELDWORK SURVIVAL GUIDE* with Bonnie Napier-Tibere (F.A. Davis), coauthor of *TEACHING IDEAS AND CLASSROOM ACTIVITIES FOR HEALTH CARE* with Susan Royce (Cengage Learning), and technical writer for *ESSENTIALS OF HEALTH WELLNESS* by James Robinson and Deborah McCormick (Cengage Learning). She also developed video content and scripts for Delmar's *CAREER SUCCESS FOR HEALTH CARE PROFESSIONALS DVD Series*, content for health care career exploration software published by Cengage Learning, and numerous instructional materials for a variety of publishers.
