**James Paul Gee : Introduction to Human Language: Fundamental Concepts in Linguistics** before purchasing it in order to gage whether or not it would be worth my time, and all praised Introduction to Human Language:

## Fundamental Concepts in Linguistics:

An introduction to fundamental concepts in the study of language, this text seeks to develop ideas in arguments in enough detail and depth so that the reader can gain a feeling for how they work and for their multiple inter-connections. It treats theoretical linguistics, socio-cultural concerns, and the study of discourse as each integral parts of a larger unified linguistics. For linguists and all those interested in the study of language.

From the Publisher This accessible book presents a complete introduction to the nature of human language and linguistics by giving readers a complete picture and overview of the field, integrating syntax, phonology, semantics, discourse, language development and change, psycholinguistics, and sociolinguistics. From the Back Cover An introduction to fundamental concepts in the study of language, this text seeks to develop ideas in arguments in enough detail and depth so that the reader can gain a feeling for how they work and for their multiple inter-connections. It treats theoretical linguistics, socio-cultural concerns, and the study of discourse as each integral parts of a larger unified linguistics. For linguists and all those interested in the study of language.
