Kevin A Lenhart : Introductory Case Studies in Infectious Disease Epidemiology before purchasing it in order to gauge whether or not it would be worth my time, and all praised Introductory Case Studies in Infectious Disease Epidemiology:

0 of 1 people found the following review helpful. disappointed By Denise S. I did not recognize that it was just the case studies, with no instructor answer key/guide. Not sure I will use it in my class as won't have time to develop my own answer key.

This set of short case studies is designed to give students an introduction into infectious disease epidemiology. The cases and the case questions are designed to encourage discussion about infectious diseases and fundamental principals of epidemiology. Case 1: Hepatitis A Case 2: Plague Case 3: Dengue Fever Case 4: Bacterial Meningitis Case 5: Rabies Case 6: Shigella Case 7: Tuberculosis Group Case Assignments Individual Case Assignments
