Ken Alibek, Thomas Dashiell, Adrian Dwyer, Scott Lane, William Patrick, Donald Ponikvar, John Rinard, Frederick Sidell : Jane's Chem-Bio Handbook, Third Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised Jane's Chem-Bio Handbook, Third Edition:

0 of 0 people found the following review helpful. Four StarsBy CustomerItem arrived OK and works fine0 of 0 people found the following review helpful. Big mistakeBy GigantIf you think you will get a real deep inside of the biological or chemical warfare...forget it. This rather very, very little book is not very useful.The advices are sometimes wrong and as an senior scientist in the biological field i can only say even the Stryer is better and more useful.0 of 0 people found the following review helpful. Three StarsBy Scott DavisNot really the level of depth I was expecting.

This is a comprehensive pocket guide detailing the range of critical planning and response procedures for a chem-bio incident. Fundamental on-scene procedural information ensures first responders have the resource necessary for planning, for responding to, and managing the aftermath of a chemical or biological incident.
