Kids love the offense and it makes for a great team effort. After learning the basic offense the kids started seeing other options that would allow them to be creative inside the offense. I followed Woodens advice on learning how to do it right way first and pay attention to the little things but never stuffed a players

By Pacer fan  
I am coaching 5th and 6th graders in a competitive league and intend on implementing his full offense this season. We are 2 weeks into it and the boys are picking it up very well. I am taking the offense a step at a time. This is absolutely a wonderful book to teach from and the DVD really helps with understanding. Wooden was one of the best coaches of all time and his insights are invaluable!
