Developed in conjunction with a health practitioner and professor of anatomy, "Joints of the Upper Extremities Anatomical Chart" is designed to provide anatomical layered views that allow practitioners to explain health conditions and injuries to their patients and clients. Chiropractors, massage therapists, orthopedists, and general practitioners will find the images valuable in the communication process. The majority of the images show key bones, muscles, nerves, and arteries. Elbow images show bones and ligaments. Images on this chart include: Anterior

Shoulder and Arm; Posterior Shoulder and Arm; Posterior Shoulder (Rotator Cuff); Superior Shoulder; Lateral Elbow; Medial Elbow; and, Palm of the Hand.
