**Gideon Berke, William R. Clark : Killer Lymphocytes** before purchasing it in order to gage whether or not it would be worth my time, and all praised Killer Lymphocytes:

This extensively documented, comprehensive survey of cell-mediated cytotoxicity (CMC) traces the history of killer lymphocytes from 1960 to the present, providing a definitive resource for specialists and non-specialists alike. It offers an advanced analysis of CMC, including a comprehensive examination of key papers underlying its evolution, and

provides a thorough discussion of the most recent advances in the field.
