Arrived in great condition... however the content is the WORST By LaurenSA lot of these are reviews are positive because the book arrived promptly and in great condition, which mine did as well. However, this book is the worst. It repeats itself needlessly and is incredibly hard to follow. It jumps around and doesn't finish ideas. As another reviewer stated, it's like being hit with a boring hammer. I'm sorry if your course requires this book- hope your instructor can make up for the poor writing! 0 of 0 people found the following review helpful. Five Stars By Brenda R.
