**Carson, F. Dye : Leadership in Healthcare: Values at the Top** before purchasing it in order to gage whether or not it would be worth my time, and all praised Leadership in Healthcare: Values at the Top:

0 of 5 people found the following review helpful. Very good serviceBy T. BurkeI received my book within 2 days of ordering....I did not expect it to be delivered so fast....Thanks!4 of 4 people found the following review helpful. Personal opinion of the bookBy D. DuncanI purchased this book as a text for a class and was pleasantly surprised. I've read a lot of leadership books but this has a different perspective than most. The author stresses the importance of core

values in order to be a successful leader and how important those values are for the future of healthcare in America. I think any manager would find the book interesting and gain from reading it.

In short chapters and concise language, this book defines leadership, describes its importance in healthcare today, and addresses the essential qualities of leadership. For each quality, the author provides a succinct explanation and a list of suggestions for actually improving or applying this leadership quality.

From the Back Cover"Anyone who reads the book will come away with a better sense of themselves and where they stand on the leadership continuum. . . . Whether you are a CEO or starting out in healthcare administration, this is a "must" for your library and regular reference!" -Michael Covert, FACHE, President and CEO, Sarasota Memorial Healthcare System "Today more than ever, physicians find themselves working in groups: clinically and group practices; administratively with health systems, payors, or as consultants; and finally in policy and management. [This book] is a primer that correctly avers personal values to be the bedrock of success as one progresses from group member to leader. A personal value system consistent with the culture of the organization is absolutely necessary for personal success. Physicians would do well to understand and heed the information put forth by Carson Dye." -Donald L. Mellman, M.D., CHE, Tampa, Florida

About the AuthorCarson F. Dye, MBA, FACHE, CEO of Exceptional Leadership, combines 21 years of health system leadership and 23 years of consulting experience. He has conducted several hundred CEO, senior executive, and physician executive searches for academic medical centers, large health systems, small-to-medium sized hospitals, and universities. Dye provides consultation in leadership assessment, physician engagement, and board relations. He has done extensive physician leadership development and built several physician leadership academies. Certified by Hogan Assessment Systems to use their psychological inventories for selection, assessment, and coaching, he helps individual leaders and teams enhance their effectiveness. Since 1987, Dye has taught many programs for the American College of Healthcare Executives (ACHE) and presented workshops for over 38 state hospital associations. He currently teaches leadership and human resources in the University of Alabama-Birmingham Executive Master's program. Author of 10 books, including ACHE Books of the Year, *Leadership in Healthcare: Values at the Top* and *Developing Physician Leaders for Successful Clinical Integration*, his physician leadership book has been used as a model for physician leadership academies. The Dye-Garman Leadership Competency Model from *Exceptional Leadership* book has been used widely as a competency model for assessment and development.
