Tom L. Humphries, Carol A. Padden, Robert Hills, Peggy Swartzel Lott, Daniel W. Renner : Learning American Sign Language DVD to accompany Learning American Sign Language - Levels 1 2 Beginning and Intermediate, 2nd Edition before purchasing it in order to gauge whether or not it would be worth my time, and all praised Learning American Sign Language DVD to accompany Learning American Sign Language - Levels 1 2

Beginning and Intermediate, 2nd Edition:

3 of 3 people found the following review helpful. Great accompaniment to the bookBy RheymammaIt should be noted that this video MUST be accompanied by the actual book. I bought both because this DVD demonstrates the sample exercises from the book, so you can actually see what the signs look like.15 of 15 people found the following review helpful. Not what I expectedBy The Curl GirlI bought this DVD to go with the book for my sign language class, because I wanted all the extra help I could get outside of the classroom as well. I figured the DVD would show how to do the vocabulary words that are in the book, but it doesn't, and if you're home and don't remember how to do the sign the book doesn't explain how to do it like some of the other books do. I didn't have a choice about the book I had to buy it for my class, but I did have a choice about the DVD and if you have a choice I honestly wouldn't bother getting it, because you won't get anything extra out of it.2 of 2 people found the following review helpful. Great starting reference, but could be betterBy 1CatwomanThe book itself must accompany an American Sign Language class, because there are too many complex signs that one might read incorrectly. The DVD is helpful, but would be better if there was an option to watch the signing in slower motion, and/or broken down word-by-word.

This new DVD to accompany the best-selling sign language book, Learning American Sign Language, brings the art and learning of sign language to life.
