Leaning to Cope CPT/HCPCS 2011By pembinesnowI ordered this book in early July, I didn't update my new address, and the book is in Wisconsin somewhere. It's now up to me to locate the book by contacting the post office where the book landed. Vendor said it was forwarded to new address. No signs of it since July 26th when it was supposedly forwarded. That said, I'm hoping the book is worth the wait.

3rd YEAR - 2011 ANNUAL UPDATE Updated for 2011, this book will be the primary textbook for CPT/HCPCS

coding courses for Health Information Management (HIM), Medical Billing Insurance and Coding (MBIC), Health Information Technology (HIT) and Health Administration Services (HSA) programs. Using a template similar to our Learning to Code with ICD-9-CM textbook, this book teaches students how to code with CPT/HCPCS using real world medical record examples.
