**Thomas J. Falen MA RHIA LHRM, Alice Noblin PhD MBA RHIA LHRM CCS, Brandy Ziesemer MA RHIA CCS : Learning to Code with CPT/HCPCS 2012** before purchasing it in order to gage whether or not it would be worth my time, and all praised Learning to Code with CPT/HCPCS 2012:

0 of 0 people found the following review helpful. A useful tool!By CJVery useful! Very interesting! and quite handy!0 of 4 people found the following review helpful. Leaning to Cope CPT/HCPCS 2011By pembinesnowI ordered this book in early July, I didn't update my new address, and the book is in Wisconsin somewhere. It's now up to me to locate the book by contacting the post office where the book landed. Vendor said it was forwarded to new address. No signs of it since July 26th when it was supposedly forwarded. That said, I'm hoping the book is worth the wait.

Updated to include the new and revised CPT/HCPS codes for 2012, this comprehensive, system-based text teaches the

essential CPT/HCPCS coding skills needed in medical coding and billing careers. The text provides an overview of coding guidelines on coding practice and introduces students to medical records, including how to locate information and code accurately and efficiently. The book covers symptoms, signs, diagnoses, procedures, and their CPT/HCPCS codes by system, and uses actual medical records to show how to code conditions and procedures. A section explains how the coding process affects reimbursement and health services administration. Each chapter includes coding practice exercises.
