Dr. Verdolini Abbott's Lessac-Madsen Resonant Voice Therapy DVD provides an overview and demonstration of the Lessac-Madsen Resonant Voice Therapy, for clinicians certified in the technique. Dynamically and thoughtfully presented, this program should be on the shelf of every voice clinician working with patients with voice disorders.

Cory Whelan, BA (George Washington University), Doody's Service, (2009): "The patient manual is especially helpful because it provides patients with specific exercises for home practice and allows them to keep track of their own progress." About the Author Katherine Verdolini Abbott is Professor of Communication Science and Disorders in the School of Health and Rehabilitation Sciences at the University of Pittsburgh.
