Pamela J. Carter RN BSN MEd CNOR : Lippincott Textbook For Nursing Assistants: A Humanistic Approach to Caregiving before purchasing it in order to gauge whether or not it would be worth my time, and all praised Lippincott Textbook For Nursing Assistants: A Humanistic Approach to Caregiving:

0 of 0 people found the following review helpful. Great Value
By myria
Bought for daughter for her CNA course .0 of 0 people found the following review helpful. Decent textbook
By Steffen
I bought this book for a class. It is well written and easy to follow. It does a good job of explaining everything (although in my mind most of it is basic common sense). It also has very detailed procedural pages at the end of every chapter to help you learn the steps you need to follow. My only real complaint is that the tables and "info boxes" and "guide boxes" are both labeled using the term "Box". It seems a little nit picky but, it is annoying to sort out the different "boxes" when looking for information. The service from this seller was excellent. I received my item in a timely manner and in excellent

condition at about half the price that my classmates paid for their textbooks.0 of 0 people found the following review helpful. like me who needs all the help she can get ...By Lynn WebbI order this book for a coworker she could not believe the price, Now she is a member as well. thanks for your loyal service for a student ;like me who needs all the help she can get when it comes to books and little money.

The Third Edition of Lippincott Williams Wilkins' flagship and cornerstone basic textbook of nursing assisting. This engaging, ancillary-rich text is intended as the basic training resource for the Nursing Assistant course which generally encompasses 120 hours of training.
