Completely updated to meet current AAMA and AMT guidelines for medical assisting practice, Lippincott Williams Wilkins' Comprehensive Medical Assisting is the ideal core text for comprehensive medical assisting programs. It covers all the required administrative, clinical, and lab competencies in a detailed yet efficient manner that appeals to students and faculty. The book includes critical thinking questions and is written for maximum readability, with a full-color layout, hundreds of illustrations, and boxes to highlight key points. A bound-in DVD includes pronunciation guides, skill evaluation forms, CMA review questions, clinical simulations, video clips of procedures, animations, and an office software simulator. A companion Website will include English-to-Spanish translation aids, ESL resources, Korotkoff blood pressure sounds, an interactive math review, and pharmacology animations. An Instructor's Resource CD-ROM will be available gratis upon adoption of the text.
