Stedman's is the ONLY spellchecker I use. It's reliable and has tons of words that are accurate according to medical transcription standards. I only wish they allowed a second

load of this software, since time my system crashes I must buy a new single-load disk. GRRRR!4 of 4 people found the following review helpful. Stedman's Plus Version 2013 Medical/Pharmaceutical Spellchecker (standard)By CustomerI gave this a full 5 stars because I knew what I wanted. I have been using this for many years as a medical transcriptionist. I now transcribe other information that involves the medical and pharmaceutical field and this is a must for anyone who does that type of work.1 of 1 people found the following review helpful. Not compatible with Office for Mac 2011By Jill BI LOVE Stedman's medical spell check and have used it for years. However, when I received it I found out it's not compatible with Office for Mac 2011. The listing did not specify this incompatibility. So sad as I really love the product when I've used it in the past.

Stedman's Plus Version 2013 Medical/Pharmaceutical Spellchecker contains nearly 500,000 medical, pharmaceutical, and bioscience terms, including brand new updates to over 8,000 terms, to ensure users the most current, comprehensive, and reliable content on the market. Compatible with a broad range of word processing systems, the Spellchecker is convenient for every user who creates or edits medical documentation and now includes Stedmans Universal Spellchecker which integrates spellcheck technology throughout your desktop. The standard single-user version is available as a Windows and Macintosh compatible CD-ROM. The 2013 version includes new medical and equipment terms introduced in 2012 and updated drug terminology drawn from Facts Comparisons'American Drug Index 2013.If you are a current user of the Stedmans Spellchecker (having purchased within the last two versions) please call 1-800-638-3030 with your registration information to get pricing for an upgrade.
