Cleve Jones, Jeff Dawson : *Stitching a Revolution - The Making of an Activist* before purchasing it in order to gage whether or not it would be worth my time, and all praised *Stitching a Revolution - The Making of an Activist*:

From the frontlines of one of the greatest human struggles of our time comes this powerful and moving tale. Both an important cultural history of the AIDS crisis and an intimate personal memoir, *Stitching a Revolution* is the story of a

man who, besieged by discrimination, death, and despair, found the courage and strength of spirit to conceive and create a unique healing vision--the AIDS Memorial Quilt. Against the turbulent backdrop of politics and sexual liberation in San Francisco during the seventies, Jones recounts his coming-of-age alongside friend and mentor Harvey Milk--and, later, Milk's assassination and the ensuing riots that threatened to tear down all they had accomplished. But Jones's political aspirations were put on hold after the emergence of an insidious, unexplainable "gay cancer" that would soon become known throughout the world as AIDS. Demoralized by the tide of death and despair sweeping his community, brutally assaulted by gay-bashing thugs, and faced with the specter of his own positive diagnosis, Jones sought a way to restore hope to a world falling apart beneath his feet. What started out as a simple panel of fabric stitched for his best friend now covers a space larger than twenty-five football fields and contains over eighty thousand names. The Quilt has affected the lives of many people, bridging racial, sexual, and religious barriers to unite millions in the fight against AIDS. *Stitching a Revolution* is a compelling, dramatic tale with a cast of memorable characters from all walks of life. At times uplifting, at times heartwrenching, this inspiring story reveals what it means to be human and how the power of love conquers all--even death.
