Glen Gillen : Stroke Rehabilitation: A Function-Based Approach, 3e before purchasing it in order to gage whether or not it would be worth my time, and all praised Stroke Rehabilitation: A Function-Based Approach, 3e:

0 of 0 people found the following review helpful. Used for OT class and good explanations!By StephI use for my OT class. Provides good explanation of how to help stroke patients.4 of 4 people found the following review helpful. Great book.By XenaReally detailed, well written, simple to read. A must for anyone who wants to learn about stroke. Definitely a keeper!0 of 0 people found the following review helpful. Essential for OTs!By CustomerDetails rationale for intervention and specific strategies you can apply in practice.

Gillen's Stroke Rehabilitation: A Function-Based Approach, 3rd Edition is the only comprehensive, evidence-based stroke rehabilitation resource for occupational therapists. Extensively updated with the latest research in assessment and intervention, this essential text presents a holistic, application-based approach that integrates background medical

information, samples of functionally based evaluations, and current treatment techniques and intervention strategies to help you confidently manage the growing number of stroke rehabilitation clients. **UNIQUE!** Case studies challenge you to apply rehabilitation concepts to realistic scenarios. Evidence-based clinical trials and outcome studies clearly outline the basis for stroke interventions. **UNIQUE!** Survivor's Perspectives help you understand the stroke rehabilitation process from the client's point-of-view. **UNIQUE!** A multidisciplinary approach highlights discipline-specific distinctions in stroke rehabilitation among occupation and physical therapists, physicians, and speech-language pathologists. Review questions in each chapter help you assess your understanding of rehabilitation concepts. Key terms and chapter objectives at the beginning of each chapter help you study more efficiently. Three new chapters broaden your understanding of stroke intervention in the areas of Using Technology to Improve Limb Function, Managing Speech and Language Deficits after Stroke, and Parenting after Stroke. Learning activities and interactive references on a companion Evolve Resources website help you review textbook content and locate additional information.
