the chapters you don't need the activity book
By Rebecca Bilavarn
I read the chapters assigned and honestly I got this for an online class and I never touched the activity book.

The ideal companion to the textbook! Here's an exceptionally student-friendly learning tool, written by the same team of authors to reinforce their textbook, concept by concept, chapter by chapter. And, like the textbook, it's designed to meet the needs of a variety of learners and learning styles.
