Nancy Olrech : Student Success for Health Professionals Made Incredibly Easy before purchasing it in order to gauge whether or not it would be worth my time, and all praised Student Success for Health Professionals Made Incredibly Easy:

1 of 1 people found the following review helpful. Student success for health professionals By Jill I'm midway through my required "Nursing Success" class, and we haven't even cracked this book. I'm not sure why the book is even on the list of requirements for the class. There are a few interesting things that I have pulled from the book, but I wouldn't say that the students really needed to purchase this book. If you're "required" to have this book for class, I recommend that you shoot an email to your professor and ask if it's really necessary. 1 of 1 people found the following review helpful. Really? By R. Degarmo This book was an overpriced regurgitation of simple rules for entry-level students in this career field. I think the class could have gone on just fine without this textbook. I did not learn anything new from this book. Very basic. Not helpful at all. 0 of 0 people found the following review helpful. satisfied. By nat This book met my expectations, purchased it for my nursing success class. This shipped @ a timely manner. thanks again.

This unique guide shows health professions students how to "win at the game of school." Working with content that is fun and easy to learn, you'll gain the skills needed to succeed in your studies and in your career as a health professional. This book introduces you to four main characters: three students and one health professional. You'll easily identify with the challenges these characters face in trying to manage their time, discover their personal learning styles, make the most of their studying, and prepare for tests. By mimicking their actions, you can overcome any obstacle that stands in your way to success. Features to Help You Succeed Playing for real scenarios show how chapter content is applied to real-life situations in the classroom and in clinical practice. Tips from the pros offer expert advice and proven strategies for overcoming study and test-taking problems. Keeping score questions at the end of each chapter challenge you to consider how you will apply the chapter content. Winning strategy lists at the beginning of each chapter set forth the objectives you should meet upon completing the chapter. The finish line summaries at the end of each chapter highlight the key concepts and skills that you need to master. A companion Website on thePoint, LWW's innovative online learning site, offers a host of extra features, including a student planner, sample resumes, and links to health career sites. LiveAdvise Student Success, an online tutoring service, lets students connect with experienced educators for help with studying, doing homework, and preparing for exams. The Self-Paced Online Course is offered for free with purchase of the text. This online course walks students through the content of each chapter by utilizing visual and auditory content, as if having the content presented by an instructor. Each online chapter integrates fun learning activities such as flashcards, process/ordering drag and drops, jeopardy, and other activities. The Self-Paced Online Course concludes with a randomized final exam based on all the content in the text. Each exam will generate a certificate that can be either printed or e-mailed to instructors as proof that the students have mastered the student success skills.
