Kathy Bonewit-West BS MEd, Sue Hunt MA RN CMA (AAMA), Edith Applegate MS : Study Guide for Today's Medical Assistant: Clinical Administrative Procedures, 2e before purchasing it in order to gage whether or not it would be worth my time, and all praised Study Guide for Today's Medical Assistant: Clinical Administrative Procedures, 2e:

0 of 0 people found the following review helpful. Out-of-date book that MA programs should not be using anymore....By MI4LifeTechnical inaccuracies. Your instructors will show you different ways from the book. Some chapters are useless, like on how to send mail and write letters. Most modern hospital systems have people in different positions doing these tasks now. The things you will be doing, other than the procedures, are not taught in this book. The kind of administrative tasks medical assistants really do, are not taught in this book.A lot of things are done on the

computer in the medical office and this book is still showing you how to do things with paper. If your MA program is still showing you how to do it via paper, get out and find a different one because you're in for a shock once you get to your externship. You won't know what you're doing, computer-wise. I found Medical Assisting to be a lot of tedious, laborious work for low wages. I have worked less and got paid more in other jobs. Caveat Emptor. 0 of 0 people found the following review helpful. Such a nice lady By Customer I am ecstatic with this purchase. She went out of her way to get this to me on time. Thanks 0 of 0 people found the following review helpful. Five Stars By Customer Some chapters were missing. I give it a 7 on scale of one to 10.

Assess your knowledge, enhance your critical thinking capabilities, and apply the skills you've learned in Today's Medical Assistant with this engaging study guide! This comprehensive collection of review tools, application exercises, and expert insight provides a fun, practical way to strengthen your understanding of concepts and procedures from the text and ensure complete preparation for success in medical assisting! Chapter assignment tables at the beginning of chapters guide you through textbook and study guide assignments, and make it easy to track your progress. Laboratory assignment tables list the procedures in each chapter, including study guide page number references, and indicate the procedures shown on the DVDs. A pretest and posttest in each chapter measure your understanding with 10 true/false questions. Key term assessments include exercises to help in reviewing and mastering new vocabulary. Evaluation of Learning questions let you assess your understanding, evaluate progress, and prepare for the certification examination. Critical thinking activities let you apply your knowledge to real-life situations. Practice for Competency sections offer extra practice on clinical skills presented in the book. Evaluation of Competency checklists evaluate your performance versus stated objectives and updated CAAHEP performance standards. Updated content includes exercises for topics such as electronic medical records, advanced directives, HIPAA, emergency preparedness, ICD-10 coding, documentation, medical office technology, medical asepsis, vital signs, pediatrics, colonoscopy, IV therapy, and CLIA waived tests. New activities provide practice for the Today's Medical Assistant textbook's newest and most up-to-date content. New Emergency Protective Practices for the Medical Office chapter includes procedures, critical thinking questions, and other activities to help you understand emergency preparedness. New Wheelchair Transfer Procedure and Evaluation of Competency checklist includes a step-by-step guide to this important procedure. New video evaluation worksheets on the Evolve companion website reinforce the procedures demonstrated on the textbook DVDs. New practicum and externship activities on Evolve provide practice with real-world scenarios.
