**Mosby : Surefire Documentation: How, What, and When Nurses Need to Document** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Surefire Documentation: How, What, and When Nurses Need to Document:

1 of 1 people found the following review helpful. Two Stars By mellowasamelon needs more examples - most of the information provided in this book is common sense 0 of 0 people found the following review helpful. Ok but not

greatBy Kindle CustomerNot as useful as I would like it to be for the computer documentaion required now2 of 2  
people found the following review helpful. Great InformationBy EjWhizzyGreat information that every nursing  
student should have at their finger tips. This book includes a charting checklist and I found the section on tips and  
advise very helpful.

This informative title provides nurses with specific, practical advice on documenting a wide range of situations from  
caring for a patient with a myocardial infarction to witnessing a patient sign his will. In clear, concise language, the  
book gives detailed explanations of how, what, and when to document in nearly 100 of the most common, most  
important situations nurses face in practice. Each entry tells exactly what to consider and what to document so that the  
nurse can ensure quality patient care, continuity of care, and legal protection for the nurse and the institution.\* Covers  
nearly 100 important nursing situations. \* Provides clinically and legally sound advice. \* Explains exactly what to do--  
and what not to do--for maximum protection for yourself and your institution.
