Walt Hendricks, Andrea Zaferes : Surface Ice Rescue before purchasing it in order to gage whether or not it would be worth my time, and all praised Surface Ice Rescue:

0 of 0 people found the following review helpful. First classBy First RspoderClearly the bible of ice rescue. Tons of wisdom here!
0 of 0 people found the following review helpful. Great bookBy Beren1mgThe book was pretty good. It had great detail on physiology and ice formation. It also was great for describing the levels of operations and their responsibilities. The only thing I thought it was missing was a section on how to rig the lines for doing Ice rescues.
0 of 0 people found the following review helpful. Five StarsBy JUANVery good

This book provides practical, up-to-date information on training, team management, equipment, and techniques for ice rescue teams.
