M.S. Paula A Sullivan, Ph.D. Arthur M Guilford : Swallowing Intervention in Oncology (Dysphagia Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Swallowing Intervention in Oncology (Dysphagia Series):

Cancer and its treatments typically have multiple and devastating effects on swallowing, speech, voice, language, respiratory and hearing systems. The successful management and rehabilitation of this challenging and high-risk patient population requires team-based collaboration and clinical expertise. Including contributions from skilled

multidisciplinary experts, *Swallowing Intervention in Oncology* is a valuable resource providing medical and health care professionals with comprehensive and pertinent clinical information. It is the first text to discuss completely and thoroughly the causes and treatment of dysphagia in persons with head and neck cancer, emphasizing the absolute need for successful team management.

Foreword by John C. Rosenbek, Ph.D. Introduction to Cancer: Oncology Principles and Management. The Care Team in Oncology. Chemotherapy. Radiation Therapy in Oncologic Management with Special Emphasis on Head and Neck Carcinoma. Primary Brain Tumors in Adults and Children. Effects of Surgery for Head and Neck Cancer. Esophageal Carcinoma. Lung Cancer. Leukemia and Lymphoma. Disorders of the Upper Aerodigestive Tract Associated with High Dose Therapy and Stem Cell Transplantation. Oral Manifestations of Human Immunodeficiency Virus Disease. Nursing Management. Nutritional Support of the Cancer Patient. Pharmacologic Considerations. Focus on Swallowing and Communication Disorders. Care of the child with Early Onset of Cancer. Hearing Management. Rehabilitation of Speech and Voice Deficits Following Cancer Treatments. Clinical Dysphagia Intervention. Caring for Patients at the End of Life. Shaping the Future.
