**Mary Neary : Teaching, Assessing and Evaluation for Clinical Competence: A Practical Guide for Practitioners and Teachers** before purchasing it in order to gage whether or not it would be worth my time, and all praised Teaching, Assessing and Evaluation for Clinical Competence: A Practical Guide for Practitioners and Teachers:

This book provides a wide range of group and individual activities for all aspects of supervision of students. Guidelines are given for the development and review of learning contracts, contract assignments and learning experiences. It addresses the requirements of the "UKCC Fitness for Practice" report to ensure the link between

learning in the classroom and practical placements is strengthened. It helps individuals to identify and write learning objectives in clinical practice then how to teach and assess these objectives.
