World Health Organization : Technical Specifications for Oxygen Concentrators (WHO Medical Device Technical Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Technical Specifications for Oxygen Concentrators (WHO Medical Device Technical Series):

The purpose of this guidance document is for the appropriate selection, procurement, utilization, and maintenance of oxygen concentrators. This document also focuses on recommendations for the appropriate use and maintenance of oxygen concentrators in an effort to increase the availability, management, and quality of oxygen concentrators and,

ultimately, to improve health outcomes in LRS. This document is intended to serve as a resource for the planning and provision of local and national oxygen concentrator systems for use by administrators, clinicians, and technicians who are interested in improving access to oxygen therapy and reducing global mortality associated with hypoxaemia.

About the AuthorWorld Health Organization is a Specialized Agency of the United Nations, charged to act as the world's directing and coordinating authority on questions of human health. It is responsible for providing leadership on global health matters, shaping the health research agenda, setting norms and standards, articulating evidence-based policy options, providing technical support to countries, and monitoring and assessing health trends.
