David Byfield BSc(Hons) DC MPhil FBCA FCC FFEAC : Technique Skills in Chiropractic: with Pageburst access, 1e before purchasing it in order to gauge whether or not it would be worth my time, and all praised Technique Skills in Chiropractic: with Pageburst access, 1e:

0 of 0 people found the following review helpful. Two Stars By Bir2 this book is false advertising the videos don't work on kindle
0 of 0 people found the following review helpful. Digital version By Teiva Livine The content is very rich in details and seems to lack a sense of flow in the digital version. The picture of some description, can sometimes, only be found 6 to 10 pages later. The hard copy might be better.
0 of 0 people found the following review helpful. Five Stars By ozkan Good book but expensive;)

Technique Skills in Chiropractic covers many common diversified adjustive techniques for all regions of the spine and pelvis using a structured psychomotor skill-based methodology. The book develops logically from general concepts

through to biomechanics, posture and motor learning and then to the techniques, using a regional approach that is fully referenced by up-to-date scientific research literature. The basic skills required in order to carry out manipulative procedures safely and effectively are clearly presented, with photographs supporting descriptions of techniques and online video clips showing how to perform them in detail from the beginning to the end of the skill set. Technique Skills in Chiropractic now comes with Pageburst, which gives readers access to the complete book content electronically. Pageburst (formerly Evolve eBooks) allows readers to quickly search the entire book, make notes, add highlights, and study more efficiently. Describes common diversified skills in a structured sequential order for the treatment of all regions of the spine and pelvis Prepared by an international contributor team to ensure a broad approach Provides detailed explanations of the cervical techniques emphasizing the benefits and minimising the risks and the proposed steps required to carry them out safely Evidenced-based throughout Contains information on the adaptation of techniques for specific patient groups such as older people, pregnant women and children Contains new chapters on manipulation skills for women and ethics and professionalism plus a new chapter presenting up to date material on the biomechanics of the spinal adjustment. Contains revised chapters on thrusting skills and posture and manual skills for the elderly patient International advisory board established from key schools across the UK, Europe and Canada New revised user-friendly layout for easier navigation The new Pageburst feature provides fully searchable text on-line together with video clips demonstrating pelvic and spinal assessment procedures, common diversified spinal and pelvic technique skills and extremity examination and manual skills

About the Author David Byfield graduated from the Canadian Memorial Chiropractic College, Toronto, Canada in 1979 and has since been in private practice and chiropractic education. He is currently a Principal Lecturer, Head of the Chiropractic Division in the Department of Professional Education and Service Delivery, the Faculty of Health, Sport Science and Head of the Welsh Institute of Chiropractic at the University of Glamorgan. David holds a BSc (Hons) degree in Biology from the University of Western Ontario, London, Canada (1974) and an MPhil degree from Southampton University, Southampton UK (1998). David holds Fellowship status with the College of Chiropractors and the Faculty of Rehabilitation and Chiropractic Orthopaedic, Associate Member of the Sports Exercise Faculty, Fellow of the British Chiropractic Association and Founding Fellow of the European Academy of Chiropractic. He written two popular chiropractic textbooks (Chiropractic Manipulative Skills, 1st ed 1996 2nd ed 2005 A Manual Therapists Guide to Surface Anatomy and Palpation Skills, 2002) and in addition has also published a number of scientific papers in the peer-reviewed literature and a number of book chapters covering diagnostic palpation, spinal manipulation, low back syndromes and functional rehabilitation. David Byfield is also an invited speaker at a number of professional and interdisciplinary meetings and conferences worldwide. He is currently an elected member of the General Chiropractic Council in the UK and currently sits on their Education Committee and Communications Advisory Group.
