From Brand: American Association for Medical Transcription : The AAMT Book of Style for Medical Transcription, Second Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised The AAMT Book of Style for Medical Transcription, Second Edition:

0 of 0 people found the following review helpful. Would recommendBy Danielle RecoderThis book has given me the knowledge and ability to transcribe medical records efficiently. Would recommend0 of 0 people found the following review helpful. Excellent value in essential bookBy BreezyI thought I had done this review already. But, again, I was happy with this purchase. The book was used but was in better condition than the seller said it was. This AAMT Book of Style is an essential book for medical transcriptionists, and the largest company in the U.S. that employs these people recommends this Edition 2. I could have paid, I guess, up to \$60 for it new (maybe more) and got a perfectly adequate copy for about \$12. So I'm happy!0 of 0 people found the following review helpful. Five StarsBy CustomerIt serves it's purpose.

Long known as "the gold standard" for medical transcriptionists, The AAMT Book of Style for Medical Transcription addresses points of grammar, punctuation, style, usage, editing, and much more. This new, improved Second Edition includes a comprehensive index prepared by a professional indexer. Style points have been reworked and enhanced, examples have been augmented for added clarity, practical hints have been placed in the margins, and points of grammar, punctuation, and usage are identified. The book is wider so that it lies flat when open and the type style and format are easier on the eye. A CD-ROM (.pdf) version is included with the book at no extra cost.

About the AuthorTessier is a nationally recognized expert in the fields of association management and medical transcription, with special interests in medical and English language and styles and practices of medical transcription. She holds professional credentials as a certified association executive (CAE), certified medical transcriptionist (CMT),

and registered record administrator (RRA).
