Scott M. Hyderkhan : The Active Shooter Response Training Manual before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Active Shooter Response Training Manual:

5 of 6 people found the following review helpful. Course Manual qualityBy Greg OThe Course manual is as described and currently the standard by which most LEO departments, Federal. State and Local governments use.2 of 3 people found the following review helpful. ComprehensiveBy RobertThis book is a comprehensive collection of tactics.The DVD's support the ability to provide classroom presentations prior to Practical Exercises.I would recommend this book as one to add to your library for LE, Security and any other personnel involved in this type of service.2 of 3 people found the following review helpful. Outstanding research book. This has been used as part ...By Danny GillumOutstanding research book. This has been used as part of my dissertation material and is a valuable tool for those with interest.

The modern Active Shooter Response (ASR) has continually evolved since its inception approximately a decade ago. This change is necessary to continue improvement on the ASR mission. The Active Shooter Response Training Manual provides police personnel with the skills necessary to respond successfully to any active shooter situation. Using established doctrine developed by the U.S. Army, this program is designed to help create, plan, and execute ASR training at the departmental level. The methods and protocols presented are applicable across all federal, state, and local law enforcement agencies. The book begins by describing the ASR operation in the format of an operations order. It categorizes threat levels, provides guidelines for action, describes the mission statement and execution of it, and addresses assets and equipment as well as issues related to command and signal. Next, the book explores: Training principles and their utilization for developing a sound ASR training cycle Movement formations for teams and squads, and the four phases of maneuver: find, fix, finish, and follow-through Close Quarter Battle (CQB), and the principles of surprise, speed, and violence of action Skills that are necessary to become proficient in creating a list of mission tasks critical to the success of the unit Command and control issues and techniques for alleviating them Performance evaluations for each phase of the ASR mission Guidelines on selecting special equipment for the ASR mission A supplemental training video and PowerPoint presentation enhance the text, providing a multitiered learning experience for police agencies of any size and enabling them to adopt the principles and techniques to their own needs. An article on modern policing by Scott Hyderkhan appeared in Law Officer on April 8, 2013.

" clear, concise and easily understandable and virtually implementable with any size team of operators or road dogs. builds on training, unity, tasks, skill levels making sure your techniques fall within the parameters of good reliable doctrine. perfect for all types of learners."National Tactical Officer Association Conference Active Shooter Instructor certification course attendee, Mesquite, Nevada." "If youre looking to build an Active Shooter Response Program OR if you feel you may need to revamp yours, consider this book as a resource to do so. With the advent of active shooter response training about 13 years ago, weve seen tactics and policies evolve greatly. This book/resource helps you to keep track of the basics, which will be required no matter what else may evolve."Frank Borelli, Editor-in-Chief, Officer.com "Hyderkkhans book should be studied by agencies and departments wishing to create or update Active Shooter policies, tactics, and procedures. The book should be considered one of the authoritative works on police Active Shooter Response."William Gage, retired US Secret Service " a highly authoritative and indispensable technical resource handbook ."International Association for Counterterrorism Security Professionals Readers LoungeAbout the AuthorScott M. Hyderkhan is a retired master sergeant of the U.S. Army and currently a law enforcement officer for the City of Mercer Island, Washington. He recently formed Kinetic Tactical Training Solutions LLC, a Seattle, Washington company that utilizes his unique and extensive experience in leadership, counseling/leader development, and small-unit tactics to provide consultation and training to law enforcement agencies.
