Bob Rynecki : The Art of the IV Start: Common Techniques and Tricks of the Trade for Establishing Successful Peripheral Intravenous Lines before purchasing it in order to gage whether or not it would be worth my time, and all praised The Art of the IV Start: Common Techniques and Tricks of the Trade for Establishing Successful Peripheral Intravenous Lines:

4 of 4 people found the following review helpful. IV StartsBy Dennis HuntAs a part time paramedic I don't do a lot of iv's. This book has a lot useful information and tips to all of us that do I've therapy. Well worth the money.2 of 2 people found the following review helpful. The information appears a bit dated. Hardly any pictures ...By JThe information appears a bit dated. Hardly any pictures (no diagrams) and printing was on cheap paper. While I commend the author for his intent to impart information and teaching (no doubt without much funding) the book doesn't measure up to the new IV books available.0 of 0 people found the following review helpful. Five StarsBy Lynda L DulanyVery helpful.

Nurses and paramedics pass down intravenous skills to new employees as best they can, but the fine details are often missed or forgotten. Bob Rynecki, a registered nurse and an award-winning paramedic, wrote this guide so you can establish peripheral intravenous lines easily and effectively. Taking a no-frills approach, he delivers the tricks and tips that will enable you to: become the go-to person for starting difficult IVs; boost your confidence no matter what your level of experience; succeed on the first stick - almost every time. Many medical professionals desperately need to learn this basic skill because it's so often overlooked in school. Many students practice starting an IV on an anatomical arm with bulging veins that doesn't mesh with what they most often find at the bedside or in the field. Drawing upon his nineteen years of experience as a bedside critical care nurse and his fifteen years of experience as an EMT/Paramedic, Rynecki shares personal stories and examples that will help you succeed in even the most challenging circumstances. Whether you're a novice or veteran clinician, you'll improve your proficiency at initiating lifelines with *The Art of the IV Start*.

About the AuthorBob Rynecki, received the Pennsylvania State Paramedic of the Year Award in 1989 and the American Association of Critical Care Nurses Circle of Excellence Award in 2010. He taught Microbiology at Penn State Mont Alto for fourteen years. He lives in Chambersburg, Pennsylvania, with his wife, Terry. They have two sons, Paul and David.
