Christopher H. Fanta MD, Elisabeth S. Stieb RN AE-C, Elaine L. Carter RN AE-C, Kenan E. Haver MD : The Asthma Educator's Handbook before purchasing it in order to gage whether or not it would be worth my time, and all praised The Asthma Educator's Handbook:

0 of 0 people found the following review helpful. Five StarsBy mariaVery well written and thorough book. I hope the authors write another updated version. Immensely helpful!1 of 1 people found the following review helpful. School NurseBy AmyI educate kids and there parents on Ashtma and inhalers almost everyday. This is a great resource for me in the school setting.0 of 0 people found the following review helpful. Well writtenBy Jeanne IzralThe best thing about this book is the review questions with every answer explained. I plan to take the asthma educator exam. I'm sure this book will help me pass.

Learn asthma care essentials -- from top experts at the Partners Asthma Center "This book teaches physicians and other healthcare professionals how to recognize and treat asthma exacerbations and was inspired by patients and their

experiences with this disease. It is designed for informed educators who know a fair amount about asthma while focusing on patient needs. It is an excellent resource for asthma educators. 3 Stars."--Doody's Review Service Internists, family physicians, physician's assistants, respiratory therapists, and pharmacists will find this unparalleled, authoritative guide has everything needed to understand and treat asthma in children and adults. Ideal for preparing for certification as an asthma educator (AE-C), The Asthma Educator's Handbook includes important information such as: How to develop an asthma action plan based on the principles of assessing and treating asthma attacks Diagnosis and staging ambulatory asthma treatment Inhalers and inhalation aids Managing asthmatic attacks Chapter-ending QAs that simulate the types of questions likely to appear on the National Asthma Educators Certification Board Exam Case discussions that test your knowledge by asking you to assume the role of an asthma educator
