**Alfredo Gomez Leal MD, Pablo Munoz Rodriquez MD : The Atlas of Ophthalmology** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Atlas of Ophthalmology:

The Atlas of Ophthalmology is an intricate and important text to the field of Ophthalmology. Inside this illustrated atlas are over 1400 color clinical photographs showing the most frequent ocular diseases in general ophthalmology. Seventeen chapters provide the reader with not only text defining the diseases and describing their characteristic clinical findings, but also photographs of different stages of the disease. Each page contains five photographs and a brief descriptive text of them to enhance the consultation that will assist in making differential diagnosis of the cases. Topics covered inside: Sclera Conjunctiva Cataract Cornea Glaucoma Optic Nerve Ocular Tumors Retinal and

Vitreous Diseases Ocular Trauma Strabismus

#8220The thematic organization of this atlas, and the detailed photographs make this book an essential reference guide for any practice.#8221 Rochelle Caviness, I
