Dr. Andrea Auerbach : The Best Kept Secret before purchasing it in order to gage whether or not it would be worth my time, and all praised The Best Kept Secret:

This book is about a little boy who actually likes going to his doctor. The neighborhood children, parents, teachers and even the dogs want to know why! He is criticized by his peers who do not believe he is telling the truth. We later find

out that his doctor is a chiropractor who helps him to feel good and stay healthy. Dr. Auerbach while explaining the benefits of chiropractic care for children also weaves into her plot tolerance for others and being open to new ideas. This book is educational for children and parents alike and a must for every chiropractic office.
