Martin Mundt : The Dark Underbelly of Hymns (Delirium X Series No. 7) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Dark Underbelly of Hymns (Delirium X Series No. 7):

0 of 0 people found the following review helpful. A Unique Voice and More Unique MindBy James kastnerWhat do you get when you mix H.P. Lovecraft, Kurt Vonnegut, Hunter S. Thompson, and The Twilight Zone? Something that resembles Mundt' s short stories, but not really. Be prepared to cringe, squirm, and laugh out loud. ..and be unable and unwilling to explain "what's so funny" . The material is so extreme it defies explanation and so perverse if you could explain it, you would worry what people would think about you for enjoying it so much. Just mull the idea of a mime with Tourette' s Syndrome and you get the idea. Maybe...oh, just read it.0 of 0 people found the following review helpful. ExcellentBy EDanFresh and different, Mundt is delightfully funny. Like a pie in the face, chock full of spikes. His wit is sharp, wicked with a dollop of menace. I thoroughly enjoyed this book and recommend it to anyone wanting a fresh new take on horror.0 of 0 people found the following review helpful. 13 really awesome storiesBy JeffThis collection is just as enjoyable as his first collection -- sometimes you just want to chuckle at the ongoing action, but they are supposedly scary stories so try to be scared as you laugh. Can't wait for a third collection!!!

Short story collection of humor and horror.
